

The Child Care Providers Coalition of Kansas is a statewide organization that supports, educates, and advocates for family child care providers. With a large membership base that is growing in numbers, CCPC is proud to offer a variety of benefits to our members including resources to help them provide educational activities for the children in their care.

Through the sharing of information on our website, newsletter, social media, regional events around the state, and our annual professional development event in Lawrence each April, CCPC's goal is to give our members access to new information and ideas to support their professional development. The more our members learn and grow as professionals, the better care they are able to provide the children. We believe supporting providers in this way will positively affect all the children and families they serve.

CCPC's annual event is an exciting weekend of learning and networking for providers. We offer state-approved professional development workshops on a variety of topics to encourage their growth as teachers, business owners, and leaders. This year's theme is "Planting Seeds...Growing Dreams." We believe that planting the seed of knowledge in providers can sprout amazing results. Our impact is large, and this year we are expecting 175 attendees that care collectively for over 1,400 children!

We are reaching out to your company to ask for your help with our mission. As we plan for this year's annual event on April 17th and 18th, we are seeking donations of door prizes, promotional items, and informational literature to give our attendees. We also have comprehensive advertisement options for companies that wish to offer us monetary support in exchange for exposure of their business.

Thank you for considering making a donation. We truly appreciate when communities come together to support children and the professionals who care for them!

Sincerely,

Angie Carnes,

2020 CCPC Event Chair
