10. Why did you become a provider?  
My intention was to become a kindergarten teacher, but after years of working with administration that didn't align with my philosophy I decided to start up my own program and never looked back.
11. Why did you join the board?  
I loved the idea of helping other providers and being part of a like minded community.
12. What are some committees/projects you would like to work on?  
I would love to work on highlighting providers from around the state for the hard work they are doing. I would also like to help keep CCPC in a forward movement...working on our core values and increasing membership.
