Grew up in Colorado

Wanted to be a mom to six, as I got older I realized I wanted to work with lots of kiddos

My family- Husband of 25 years, 21 year old daughter who works with me, 18 year old son who works for Garmin. And I'm very fond of the twins I carried as a surrogate, who are almost 6!

I'm afraid of not being good enough and of death and loss

Best and worst quality

I tend to overextend myself. I am not good at receiving criticism (working on being better at it)

I'm very empathetic and try to help in any way I can

Favorite color is Purple

Favorite food, lots of food...depends on the season. Summer I love watermelon and cherries

Free time I love to travel with my people! Spend time with the twins, watch movies, read books, crochet

Pamper myself by doing the things listed above

Became a provider to be with my child, and to know that at least the children I had in my care were safe and loved. Abuse scares me so much!

Joined the board to try to help providers in Kansas!

I would like to continue working in advocacy! I also like the more creative jobs, decorating, provider gifts, love being able to be creative! I work best on tight deadlines with some creative freedoms!

I feel I am good at seeing things from multiple perspectives, which can help when working with people.
